

PEAK Admission Information

-- Achievement Data --

The Achievement Data which will be considered by the PEAK Selection Committee consists of the applicant's grade point average (GPA) and CSAP scores (or the equivalent). This category is the least heavily weighted in the selection process, lower than the student-created portfolio, the recommendation forms, and the cognitive ability test scores.

**** Applicants currently enrolled in Jeffco Public Schools:**

After your other application materials arrive, staff from the Jeffco Gifted and Talented Department and/or WRHS will access and submit the following: the most recent GPA available, 7th Grade CSAP Reading scores, 7th Grade CSAP Writing scores, 7th Grade CSAP Math scores, and 5th Grade CSAP Science scores.

You do not need to provide copies of this information.
We will take care of this for you.

**** Applicants NOT currently enrolled in a Jeffco school:**

If the applicant is not currently attending a Jeffco school, then we do not have access to the student's GPA or test scores. Please submit the student's most recent report card grades. Also, please submit the most recent achievement tests taken (CSAP, ITBS, Terra Nova, WJ-R, or the equivalent). These items are due on or before **December 2nd** for First Round applicants, on or before **April 21st** for Second Round applicants, and on or before **August 11th** for summer applicants.
