Jeffco Public Schools Superintendent Dr. Jason Glass will be facilitating four community conversations about school district finances in March and April. The meetings will include a high-level overview of the school district budget, the goals of the new Jeffco Generations vision, and invite discussion on how to utilize funding to meet the needs of our students. Parents, students, staff, and community members are welcome to join in the conversation.

What do you think is the most important thing for schools to address? How do you think funds should be allocated to support educational goals? Where would you invest funds to help the Jeffco Generations vision become a reality? Join us for an informative, engaging discussion.
